## SESSIONS FOR LAW OFFICERS PLANNED HERE

Arrangements have been completed, according to Chief of Police Robert C. Harpster, for a criminal investigation school for Adams county law enforcement officers to be held in the borough council chambers in the engine house, East Middle street, beginning September 25. The classes will be held on Monday and Wednesday evenings for nine sessions, from 7 to 9 o'clock.

The school will be a successor to the basic and advanced schools which were held here in 1948 and 1949. Invitations were extended to all law enforcement officers in the county, following a conference with A. Cornelius, Jr., special agent in charge of the Philadelphia office of the FBI.

During school sessions a crime case will be set up and the police students will be required to handle the case as an actual investigation. They will be required to find the clues, interview the suspects and finally bring their evidence against the accused in a realistic trial. This same type of school has been given in various sections of Pennsylvania and has invoked interest not only among the students, but also in civic and judicial circles.

There will be no charge for enrollment in the school and it is not necessary for an officer to have attended the basic and advanced sessions in order to qualify for this particular school. Instructors will be made available by the FBI and those completing the course will be awarded a certificate of achievement issued by the Pennsylvania Chiefs of Police association.

In November, 1948, 35 law enforcement officers representing Abbottstown, Biglerville, Camp Hill, Dallastown, East Berlin, Gettysburg, Hanover, Lemoyne, Littlestown, New Oxford and York completed the advanced course.

## HEAVY RAINS SWEEP PART OF COUNTY, WITH WIND AND HAIL

Rain—two and three tenths inches in one hour—flooded a central section of the county Thursday afternoon about 4 o'clock, causing streams to overflow, bringing with it some hail, pounding down crops, and causing traffic to halt along highways.

A windstorm accompanying the rain in one section ripped off part of a barn roof on one farm, uprooted trees and tore down a number of telephone poles along country lines.

The storm swept a path from Dillsburg to Hanover, and avoided the remainder of the county. It caused a breaker to go out at the Metropolitan Edison station at Gardners, causing the entire system through this section to "stagger" momentarily, but the breaker went back in and the local office reported no damage or break in service in its territory.

## Trees Are Uprooted

At the farm of Howard Guise, along the Heidelsburg-Table Rock road, the wind ripped off part of a metal roof from a barn and the Gettys' bakery driver reported limbs blown off trees and trees uprooted in his section.

At the farm of W. Clayton Jester, Biglerville star route, the wind hurled porch furniture from the porch, knocked down several trees and telephone poles and beat down the corn, causing some damage, although the amount could not be immediately estimated.

George F. Weaver, reported that 2.3 inches of rain fell on his Gettysburg property.

## County's Bonded Debt Is Reduced

Adams county paid out \$9,000 today in recalling road bonds issued years ago. With the payment, the amount of money owed by the county on road bonds was reduced to \$33,000, Commissioners' Clerk Clarence C. Smith said.

On October 1 the county will pay off \$7,000 in bonds issued to build the jail, which will bring the amount still owed in bonds for the jail down to \$29,000.

The total bonded indebtedness of the county, as of October 2 will be \$62,000, a drop of \$16,000 from the \$78,000 owed at the beginning of the year.

Smith noted that under the plan for paying off the bonds, the county will be free of debt, provided no new bonds are issued, by October 1, 1954.

## Weather Conditions Hard On Tomatoes

Weather conditions played an important part in causing Adams county's commercial tomato crop to be below normal, County Agent M. T. Hartman said today in a talk over Radio Station WGAT.

During the past several years the county's some 2,000 acres of commercial tomatoes have produced from fair to excellent results, Hartman noted. This year the tomato plants were not planted until from two to four weeks later than normal because of the spring rains. Wet soil conditions may also have dissipated much of the fertilizer placed in the fields, he added, and as a result the tomato plants have not been able to produce as well as usual.

## Three Yankees Tossed Into Roaring Fire By Their North Korean Captors On West Front

By WILLIAM JORDEN

With U. S. Second Division, Korea, Sept. 15 (AP)—At least three American soldiers were thrown into a roaring fire by their North Korean captors on the western front recently.

The grisly tale of this latest in a series of Red atrocities against American prisoners came to light during a U. S. Second Division investigation today.

The Americans were captured when the Reds overran an advance command post the night of August 31. The American position fell during the first Communist drive that rocked United Nations defenders back on their heels.

A number of witnesses told the army inquiry board they saw their fellow soldiers, some of them wounded, thrown into a roaring fire which apparently had been built for that purpose.

Sgt. Lester Marcum of Vaughn's Mill, Ky., had a squad of Americans and South Koreans manning a 75-mm. gun on the perimeter of the overrun command post. He said he was about 200 to 300 yards away.

Marcum said he saw three Americans thrown into the fire by the North Koreans. He said he heard one scream: "Don't do it! Don't do it!"

The sergeant said the Reds occupied the position about 30 minutes and then moved on after their grim work was done.

Sgt. H. Stephan of Greeley, Colo., witnessed the fire deaths from a distance of 150 feet. He said he lay still, hoping the Reds would not see him.

Stephan said the North Koreans made the fire with blankets and anything available. He said the fiery deathbed was about 10 feet across.

He said the first man tossed into the flames appeared to be wounded badly. He said the Reds carried him to the fire and he made no effort to get out.

## Pleaded With Captors

The second man, he said, was able to walk with difficulty. It was he who pleaded with the North Koreans.

"They slugged him with something," Stephan went on, "and threw him in."

Stephan said he could not watch the third man tossed into the fire but that he heard the victim scream with pain.

Stephan said he was spotted by a Red Korean. The Red fired at him but he managed to escape to the American lines.

The area where the atrocities were committed has not been recaptured.

## COLONIAL ART WORK IS TOPIC FOR CLUB TALK

Much of the so-called Pennsylvania Dutch work in painting on linens is actually early American. John Clarence Byers, Littlestown, declared in a talk before the Business and Professional Women's club Thursday night at the YWCA.

"As very little of the old painted linen is signed, it is difficult to determine when it was begun in this country," Mr. Byers said, "but it was about the late 1700's and early 1800's. In that period people had few tools but plenty of time and kitchenware, chests and pottery were painted in elaborate patterns of hearts, tulips and birds in plain, bold colors of blue, red, green and yellow. No pastel shades were ever used."

Mr. Byers exhibited a goose-neck coffeepot in tin from his collection that was plainly dated 1844. He also demonstrated to the group how free-hand bronzing is done.

## Miss Wright Presides

Miss Virginia Wright presided at the meeting and other members of the committee in charge were Mrs. James S. Shenk, Miss Margaret Galbraith, Mrs. William Wright, Mrs. Harold Sharpe and Mrs. Floyd King. Many articles were displayed on a table covered with an old-fashioned red checked tablecloth. Coffee and cake were served following the meeting.

The "Sally-forth" to the Blue Ridge Pipe and Nipple company planned for next week has been postponed and the events for the remainder of the month will be announced at a later date.

## BURGESS TALKS ABOUT HIS TOWN

The mode of operation of Gettysburg's borough government was outlined this noon by Burgess William G. Weaver in a talk over Radio Station WGAT.

Burgess Weaver noted that the town is one of 940 boroughs in the state, that it has 48 "white-way" lights and 225 overhead street lights. He added that the borough has 70 fire plugs for the town's protection.

He noted that the borough's income includes \$35,943.40 from taxes collected and \$22,168.74 from parking meters. The theater tax produces \$6,526.69 and the burgess' office collected \$11,303.53 from digging, building, sewer tapping and similar permit fees. The town received \$13,298.21 from the various state funds and other miscellaneous sources.

Expenditures of the borough in 1949 totalled \$95,541.64 he said, and the total liabilities, representing outstanding borough bonds, amount to \$26,500.

The burgess praised the fire department for its achievements, and also praised the mosquito committee, headed by Fred Hummelbaugh, for its success in keeping the town practically mosquito-free this summer at an outlay of less than \$1,000, and the council for its work.

He described the municipal set-up, appointive offices, sewer system and the highway and other departments. In concluding he said: "Operation of our town is a subject that every citizen should understand, and understanding be more tolerant of mistakes made and will better appreciate our civil servants."

Tokyo, Sept. 15 (AP)—American marines and infantry stormed ashore in force far up Korea's west coast today at Inchon and drove swiftly into the big port city under heavy Red fire.

Inchon is the harbor for Seoul, 22 miles inland.

American and British warships covered the landings with a crushing bombardment.

Carrier planes sent rockets and machinegun fire blazing into the concealed North Korean shore positions.

South Korean marines at the same time landed on the East coast.

General Douglas MacArthur, United Nations commander who planned the bold amphibious operation to get behind Red battlelines, was on hand to direct the west coast landings on the Yellow sea.

Brown pillars of smoke from the bombardment billowed up into the overcast skies.

## Driving Inland

AP Correspondent Reiman Morin reported shortly after the landing the Americans had driven two miles into Inchon. Morin landed with the forces. The west coast operation put the Allied troops 150 miles behind the south-east Korean beachhead front.

Morin reported an attack on Wolmi island—connected to Inchon by a half mile causeway—preceded the main landings at the port city. The island fell to the marines after an hour of battle.

Wolmi was strongly defended. It commands the entrance to Inchon harbor and is part of the harbor installations. They were shelled by six American destroyers and four cruisers—two of them British—for two days before the landings. The marines hit the beach at 6:30 a.m. (4:30 p.m. EST, Thursday). The American flag was planted on Wolmi just 32 minutes later.

They will be required to find the clues, interview the suspects and finally bring their evidence against the accused in a realistic trial. This same type of school has been given in various sections of Pennsylvania and has invoked interest not only among the students, but also in civic and judicial circles.

There will be no charge for enrollment in the school and it is not necessary for an officer to have attended the basic and advanced sessions in order to qualify for this particular school. Instructors will be made available by the FBI and those completing the course will be awarded a certificate of achievement issued by the Pennsylvania Chiefs of Police association.

In November, 1949, 35 law enforcement officers representing Abbotstown, Biglerville, Camp Hill, Dallastown, East Berlin, Gettysburg, Hanover, Lemoyne, Littlestown, New Oxford and York completed the advanced course.

# HEAVY RAINS SWEEP PART OF COUNTY, WITH WIND AND HAIL

Rain—two and three tenths inches in one hour—flooded a central section of the county Thursday afternoon about 4 o'clock, causing streams to overflow, bringing with it some hail, pounding down crops, and causing traffic to halt along highways.

A windstorm accompanying the rain in one section ripped off part of a barn roof on one farm, uprooted trees and tore down a number of telephone poles along country lines.

The storm swept a path from Dillsburg to Hanover, and avoided the remainder of the county. It caused a breaker to go out at the Metropolitan Edison station at Gardners, causing the entire system through this section to "stagger" momentarily, but the breaker went back in and the local office reported no damage or break in service in its territory.

### Trees Are Uprooted

At the farm of Howard Guise, along the Heidelsburg-Table Rock road, the wind ripped off part of a metal roof from a barn and the Gettys' bakery driver reported limbs blown off trees and trees uprooted in his section.

At the farm of W. Clayton Jester, Biglerville star route, the wind hurled porch furniture from the porch, knocked down several trees and telephone poles and beat down the corn, causing some damage, although the amount could not be immediately estimated.

George F. Weaver, reported that 2.3 inches of rain fell on his Gettysburg.

Twenty-seven others were injured seriously, the Philippines White House announcement said. The report of the casualties was received by the presidential palace from Red Cross representatives on the island.

New York, Sept. 15 (AP) — A tentative settlement on "all contract issues" was reached today by the General Electric Co. and the United Electrical, Radio and Machine Workers of America (Ind.). The announcement, first made by the union, was confirmed later by a spokesman for the company.

# County's Bonded Debt Is Reduced

Adams county paid out \$9,000 today in recalling road bonds issued years ago. With the payment, the amount of money owed by the county on road bonds was reduced to \$33,000. Commissioners' Clerk Clarence C. Smith said.

On October 1 the county will pay off \$7,000 in bonds issued to build the jail, which will bring the amount still owed in bonds for the jail down to \$29,000.

The total bonded indebtedness of the county, as of October 2 will be \$62,000, a drop of \$16,000 from the \$78,000 owed at the beginning of the year.

Smith noted that under the plan for paying off the bonds, the county will be free of debt, provided no new bonds are issued, by October 1, 1954.

# Weather Conditions Hard On Tomatoes

Weather conditions played an important part in causing Adams county's commercial tomato crop to be below normal, County Agent M. T. Hartman said today in a talk over Radio Station WGAT.

During the past several years the county's some 2,000 acres of commercial tomatoes have produced from fair to excellent results, Hartman noted. This year the tomato plants were not planted until from two to four weeks later than normal because of the spring rains. Wet soil conditions may also have dissipated much of the fertilizer placed in the fields, he added, and as a result the tomato plants have not been able to produce as well as usual.

# Three Yankees Tossed Into Roaring Fire By Their North Korean Captors On West Front

By WILLIAM JORDEN  
With U. S. Second Division, Korea, Sept. 15 (AP)—At least three American soldiers were thrown into a roaring fire by their North Korean captors on the western front recently.

The grisly tale of this latest in a series of Red atrocities against American prisoners came to light during a U. S. Second Division investigation today.

The Americans were captured when the Reds overran an advance command post the night of August 31. The American position fell during the first Communist drive that rocked United Nations' defenders back on their heels.

A number of witnesses told the army inquiry board they saw their fellow soldiers, some of them wounded, thrown into a roaring fire which apparently had been built for that purpose.

Sgt. Lester Marcum of Vaughn's Mill, Ky., had a squad of Americans and South Koreans manning a 75-mm. gun on the perimeter of the overrun command post. He said he was about 200 to 300 yards away.

Marcum said he saw three Americans thrown into the fire by the North Koreans. He said he heard one scream: "Don't do it! Don't do it!"

The second man, he said, was able to walk with difficulty. It was he who pleaded with the North Koreans.

"They slugged him with something," Stephan went on, "and threw him in."

Stephan said he could not watch the third man tossed into the fire but that he heard the victim scream with pain.

Stephan said he was spotted by a Red Korean. The Red fired at him but he managed to escape to the American lines.

The area where the atrocities were committed has not been recaptured.

# COLONIAL ART WORK IS TOPIC FOR CLUB TALK

Much of the so-called Pennsylvania Dutch work in painting on tinware is actually early American. John Clarence Byers, Littlestown, declared in a talk before the Business and Professional Women's club Thursday night at the YWCA.

"As very little of the old painted tin is signed, it is difficult to determine when it was begun in this country," Mr. Byers said, "but it was about the late 1700's and early 1800's. In that period people had few tools but plenty of time and kitchenware, chests and pottery were painted in elaborate patterns of hearts, tulips and birds in plain, bold colors of blue, red, green and yellow. No pastel shades were ever used."

Mr. Byers exhibited a goose-neck cofferpot in tin from his collection that was plainly dated 1844. He also demonstrated to the group how free-hand bronzing is done.

# Miss Wright Presides

Miss Virginia Wright presided at the meeting and other members of the committee in charge were Mrs. James S. Shenk, Miss Margaret Galbraith, Mrs. William Wright, Mrs. Harold Sharpe and Mrs. Floyd King.

Many articles were displayed on a table covered with an old-fashioned red checked tablecloth. Coffee and cake were served following the meeting.

The "Sally-forth" to the Blue Ridge Pipe and Nipple company planned for next week has been postponed and the events for the remainder of the month will be announced at a later date.

# BURGESS TALKS ABOUT HIS TOWN

The mode of operation of Gettysburg's borough government was outlined this noon by Burgess William G. Weaver in a talk over Radio Station WGAT.

Burgess Weaver noted that the town is one of 940 boroughs in the state, that it has 48 "white-way" lights and 225 overhead street lights. He added that the borough has 70 fire plugs for the town's protection.

He noted that the borough's income includes \$35,943.40 from taxes collected and \$2,168.74 from parking meters. The theater tax produces \$6,526.69 and the burgess' office collected \$11,303.53 from digging, building, sewer tapping and similar permit fees. The town received \$13,298.21 from the various state funds and other miscellaneous sources.

Expenditures of the borough in 1949 totaled \$95,541.64 he said, and the total liabilities, representing outstanding borough bonds, amount to \$26,500.

The burgess praised the fire department for its achievements, and also praised the mosquito committee, headed by Fred Hummelbaugh, for its success in keeping the town practically mosquito-free this summer at an outlay of less than \$1,000, and the council for its work.

He described the municipal set-up, appointive offices, sewer system and the highway and other departments. In concluding he said: "Operation of our town is a subject that every citizen should understand, and understanding be more tolerant of mistakes made and will better appreciate our civil servants."

## 4-H COMMITTEE NAMED TO PLAN FOR FUN NIGHT

Plans for a "Fun Night" program for all members of 4-H clubs in the county were outlined Thursday evening at a meeting of the Adams County 4-H County Council held in the offices of the county Rural Electrification association at the rear of North Stratton street.

Miss Joyce Yingling, president of the county unit, named Creta Epley, Helen Martin, Lyndale Brandon and Richard Eversole as a committee to complete arrangements for the "fun night" and set the date and location for the event.

All types of games and similar activities are planned for the event in order to provide entertainment for all of the members of the various 4-H clubs. The age of members of the clubs, which are located throughout the county, range from 10 to 20 years.

**To Draft Constitution**  
A meeting of the president, Miss Yingling; Vice President Helen Martin; Gettysburg 4-H club, and Secretary Joyce Muselman, Ortanna, will be held September 20 at the court house to draw up a constitution and by-laws for the newly organized council. The constitution will then be submitted to members of the organization.

Lawrence Crouse reported on the activities of the 4-H clubs at the South Mountain fair, and Lyndale Brandon reported on the round-up held by the 4-H clubs at the fair.

Both agreed that this year's participation by 4-H members was the best thus far. In order to spur additional participation in fair activities by 4-H members Brandon suggested the possibility that all club members who show animals at the fair be given a cash award. At the present time, he noted, only those members with what they consider the best animals, bring them to the fair, because all of the cash goes to the winners.

**Discuss Radio Program**  
Since there is some expense connected to transporting an animal to the fair Brandon suggested that the prize money be split up to provide several dollars for each participant in the 4-H animal display to pay the costs of inoculations and transportation. He argued that the principal purpose of the display is to show the animals and added that the glory of having won the ribbon for having the best animal present should be sufficient for the winners. The matter was held in abeyance for further consideration.

The possibility of having the 4-H clubs of the county present a weekly program over WGET was discussed, with the members of the council scheduled to sound out the sentiment of the clubs they represent on the matter.

## Littlestown Man Is Jailed In Maryland

Maryland authorities jailed Richard Patrick Kress, 24, Littlestown, Thursday after he was unable to pay a total of \$200 fines plus costs on four charges in connection with a hit-and-run auto collision Wednesday night near Union Mills. He was fined \$100 for operating while intoxicated; \$50 for failure to stop after an accident; \$25 for operating without a license and \$25 for reckless driving.

Trooper First Class J. S. Poteet, who investigated, said that Kress struck the station wagon owned by David B. Meyer, 22, Westminster R. 2, about one mile east of Union Mills at 7:45 p.m. Thursday, but failed to stop. He said Meyer got the license number and description of the car and notified police. Poteet apprehended Kress one mile from Littlestown. Poteet said that Kress had locked and abandoned his vehicle and was hitch-hiking when he found him. He said that Kress confessed.

## HEAVY RAINS

(Continued from Page 1)

Gettysburg R. 4 farm within an hour. All told 3½ inches fell in the past 24 hours according to a rain gauge on the farm. A large farm pond which had 3 feet of water in it before the rains came now is within 3 inches of the 6½ foot mark.

Hail as large as marbles was reported at the Weaver farm, although the hail was of brief duration.

## Motorists Halted

Mrs. Weaver said the storm was noted by its intensity with the rain falling as if it were a cloud-burst and by the quickness with which the storm appeared. She said that the cloud gathered and the rain began to fall so swiftly she was unable to bring into the house much of the washing she had on a line.

Motorists driving from Gettysburg to New Oxford were halted by the density of the downpour, and cars were stopped all along the line to Abbotstown. The storm seemed to have its edge at Abbotstown and between here and New Oxford. Streams were swollen and roads flooded in some sections.

The Adams Electric cooperative reported that the terrific downpour flooded its lines in some sections, causing short circuits and cutting out service to some areas.

The heavy rain fell only in certain parts of the county, while other sections, including Gettysburg, had no rain. The Arendtsville laboratory reported that only eleven-hundredth of an inch of rain fell in the past 24 hours there. The day before the rainfall was 51 of an inch and Tuesday the rainfall was 73 of an inch.

# DIMAGGIO, MIZE POUND YANKEES INTO TOP SPOT

By RALPH RODEN  
(Associated Press Sports Writer)  
A couple of old pros, Joe DiMaggio and Johnny Mize, are nobly carrying on the New York Yankee tradition of winning the clutch games.

These two veterans, both in their 12th seasons, are supplying the power that has propelled the Yankees to the front in the ding-dong American league pennant fight.

DiMaggio and Mize powered timely home runs yesterday to lead the bombers to a 7-5 victory over the Tigers in the opening game of their vital three-game series at Detroit.

The "Jump" triumph moved the world champions to the head of the class with a half-game edge.

The Tigers fell back to second while the surge of the Boston Red Sox was derailed temporarily in St. Louis by the upstart Browns, who now have won eight in a row. The Browns polished off Tom Yawkey's gold-plated boys, 6-3. The Sox now trail by two games.

Hal Newhouser started against the Yanks' Vic Raschi yesterday.

Tigers Start Fast

Detroit plucked Raschi for four runs in the opening inning as they put together three singles, three walks and a fly ball, but then the old pros started to operate.

DiMaggio led off the second inning with his 29th homer. Hank Bauer walked. Mize followed with his 20th round-tripper, and the Yanks were back in business. They tied the score at 4-4 with a run in the third and pushed two more across in the fourth to take the lead for keeps.

Dick Starr, a former Yankee, stunned the Red Sox with a neat seven-hitter under the lights at St. Louis. The Browns broke a 2-2 tie with three runs in the sixth inning and were never headed.

Dick Kokos began the winning rally with a double. Hank Artt singled Kokos home but was thrown out attempting to reach second. George Stirmweiss, another former Yankee, doubled and went to third on a ground out. Owen Friend was intentionally walked and promptly stole second. Starr grounded to short but Vern Stephens threw wild to first and Stirmweiss and Friend scampered home with the clinching runs.

The Chicago White Sox turned back the Philadelphia Athletics, 5-2, in the only other American league game. Washington and Cleveland were rained out.

Phil's Nip Cards  
The Philadelphia Phillies continued their march to the National league pennant by edging the St. Louis Cardinals, 3-2, in a night game in Philadelphia. Willie Jones singled home Ed Waitkus from third base with two out in the ninth inning to win the game.

The Phils' lead, however, was reduced to six games as the runner-up Brooklyn Dodgers took a doubleheader from the Cincinnati Reds, 6-3, and 5-2.

Home runs by Gil Hodges, Billy Cox, Bruce Edwards and Carl Furillo featured the first-game victory. Preacher Roe gained his 18th victory in the finale but Ralph Branca saved the game in the ninth by striking out two pinch-hitters with the bases loaded.

The New York Giants split a doubleheader with the Pittsburgh Pirates, winning the second game, 6-1, behind the six-hit pitching of Jim Hearn after losing the opener, 7-1, to little Murry Dickson, who also granted only six blows.

Johnny Sain became Boston's third 19-game winner as he pitched the Braves to a 7-4 victory over the Chicago Cubs.

## Eastern League

(By The Associated Press)  
Jim Mangano's hitting is just a sample of the do-or-die fight the late-coming Albany Senators are waging to gain the Eastern league's final playoff.

Mangan slammed his first triple of the year in the ninth inning last night at Binghamton and reached home on an outfield fly. The Senators won, 2-1, and tied the series at 1-1.

The teams tangle in Albany tonight for the third game of their best-of-seven series.

Wilkes-Barre's pennant winners, holding a 2-0 edge, play again at Hartford, where they eked out a 7-6 victory last night.

## Interstate League

Wilmington, Del., Sept. 15 (AP)—The Wilmington Blue Rocks, winners of the Interstate league pennant, held a one-game edge over Hagerstown's Braves today in the final playoff series for the Governor's cup.

Wilmington edged Hagerstown 7-6 last night in the first game of a best four-out-of-seven series. The two clubs met here again tonight.

The Blue Rocks were behind 6-5 going into the ninth inning. But Manager Skeeter Newsome singled with the bases loaded to drive home the tying and winning runs.

Relief hurler Dick England, last of four Wilmington hurlers, got credit for the win while Ray Bradford was charged with the loss.

Besides chasing home the winning runs with his payoff single,

## Westminster Faces GHS In Grid Opener Here This Evening

A promise of ideal football weather for this evening indicates an unusually large turnout for the opening football game on the high school field tonight when the Gettysburg high eleven meets Westminster. The game will start at 8 o'clock.

Tonight's contest promises to be a slam-bang affair all the way. Westminster, boasting a big veteran organization, is confident of handing the Warriors a surprise. On the other hand Coach Shoemaker's outfit has been showing great promise in recent drills and have high hopes of repeating last year's victory over the Marylanders.

Coach Ruby of Westminster revealed this morning that James Zuck, 172-pound letterman tackle, fractured a bone in his foot during a drill Thursday evening and will not be in action tonight.

A large delegation of Westminster fans is reported planning to accompany their team here and it is probable the school band will also make the trip.

Gettysburg's radio station, WGCT, will broadcast the game.

FATHER OF NINE KILLED  
Bloomburg, Pa., Sept. 15 (AP)—A father of nine children was killed instantly yesterday when caught by a whirling mill saw blade while at work on a farm near here. He was Antonio Urso, of Mainville.

Newsome had two other hits in five trips to the plate and all told drove home four runs.

# YORK SPRINGS HIGH GRIDDERS OPEN SATURDAY

The York Springs high school football squad, under the discerning eyes of their coaches, John Hubley and "Pete" Kemper, are getting set for their initial tilt of the season against Duncannon on Saturday afternoon at 2:30 o'clock on the Duncannon field. This will be a non-league game.

This year's squad includes 17 seniors and the same backfield that saw action last year. One difficulty that Coach Hubley has had to face has been that of holding practice sessions with an incomplete squad. A scrimmage with Biglerville high school recently was of much value in the intensified training program.

Here is the probable starting line-up that Coach Hubley will send against Duncannon on Saturday afternoon: At left end is Wishard, a veteran at that position; left tackle, Lehman, a substitute guard last year; left guard, King, who was a substitute guard last year; center, Taylor, converted from tackle; right guard, Runkle or Smith (Runkle is a veteran in this position while Smith is a 190-pounder who is quick on his feet and shows promise); right tackle, Lott, converted from end, and at right end, Tanger, a substitute end last year.

Only one major change has been made in the backfield. Harbold, a veteran center last year, has been switched to the fullback slot because of his weight and speed. At quarterback again will be E. Guise and at the halfback positions will be last year's veterans, Kemper and Keefer.

Expected to see action will be Reinecker and Sherley at end; G. Guise, Kennedy and Wonders in the backfield, and Cook and Ogbert at tackle.

Coach Hubley is striving to develop a good passing attack. In Wishard he has a good passer-receiver. Hinging of the pigskin will be done by Kemper and G. Guise.

Coach Hubley is not anticipating a picnic at Duncannon, but a tough contest. His team lacks the experience that comes from years of play and is not too speedy. Duncannon will use the single wing.

## LOCAL NINE AT GREEN SPRINGS; OTHER PLAYOFFS

Although football will commence to hold the attention of many fans this week, baseball still retains its hold locally with a number of playoff games involving county teams scheduled for the week-end.

Only one Adams County league playoff game is listed for Saturday. New Oxford playing at Fairfield at 2:30. NewOxford won the first game of the series 11-10. The Hanover Moose, who eliminated the Conewago VFW team in the other semi-final series, will be idle. Gettysburg and Green Springs will make their second effort to open their semi-final South Penn series Sunday at 2 p.m. at Green Springs. Last Sunday's opener was rained out. Hunterstown, 4-2 victor over Greencourt last Sunday, will be the home team for this Sunday's contests.

In the Penn Adams circuit Fairfield will play at Cashtown on Sunday in the second of their best-of-three series. Fairfield won last Sunday 9-0. Bendersville and Wensville, washed out last week, will open their series at Arendtsville. The Penn-Maryland league was able to stage both of its scheduled openers in the playoffs last week. Emmitsburg, 8-7 winner last week, will be host to Harney on Sunday while Middleburg, 2-1 victor a week ago, will be host to Wakefield. Hanover, 1-0 winner at Emmitsburg last week, will clash in their second Pen-Mar loop semi-final game at a site to be announced. McSherrystown will again play at Blue Ridge Summit, seeking to repeat a 2-0 triumph.

## Sports Roundup

New York, Sept. 15 (AP)—When the Portsmouth, Va., Cubs clinched the Piedmont league pennant, owner Frank Lawrence got on the phone and badgered the manufacturers until they promised delivery of the flag in time to raise it at the next home game. . . . Asked Frank: "What's the use of waiting until next year to raise the pennant that this year's team won?" . . . Query from "Mr. Inside"—Is Jerry Bush, U. of Toledo basketball coach, concerned about all those person-to-person telephone calls from Louisville to Jack Peeman, a future star?

Answer: Dunno. . . . Tom Dorney, the one-armed tackle, is the fourth former St. Benedict's college footballer to get into Kansas politics. He recently was nominated for sheriff of Wyandotte county. . . . Stan Heath, the former Nevada passing whiz, recently cut loose by the Green Bay Packers, has caught on with the Hamilton, Ont., club of the Inter-Provincial league.

X-TRA ORDINARY  
George Keough, Indiana U. ticket manager who spends a large part of his time listening to complaints, got a laugh out of one ticket application from a feminine fan. . . . She enclosed a clipping of an aerial photo of the stadium. . . . A big "X" crayoned on the 50-yard line bore the caption, "Here." . . . An arrow pointed to another "X" marked in the distant end zone and labeled "Not Here." . . . Maybe it's giving away a trade secret to report that she got midfield seats.

CLEANING THE CUFF  
Mel Ott, who always thought Travis Jackson was the best middle man on a double play who ever played for the Giants, now maintains that Al Dark is fully as good on the pivot. . . . Jerome Helluin, Tulane tackle who was "down" to 293 pounds when he reported this fall, says his baby brother, a high school guard, weighs an even 300.

Studios Bill Wilkening, Missouri halfback, is taking courses in modern Russian, German composition and conversation, intermediate Russian, German dramatists—19th century, and history of northern renaissance painting. Yeah, we passed ancient Oriental literature at Princeton, too.

Atlanta, Sept. 15 (AP)—Little Mae Murray, a quiet Vermont, is a star today and she's giving women's golf what it badly needs.

Playing spectacularly, Mae sidelined two of the best golfers in the National Women's Amateur yesterday and goes against veteran Helen Sigel of Philadelphia in the semi-finals today.

Miss Murray was just another of the better amateurs before a one-up victory on the 27th hole over Fay Crocker of Montevideo, Uruguay, and a one-up win over Dot Kiely of Long Beach, Calif.

# DUKE GRIDDERS' COACH IS BUSY

Camp Atterbury, Ind., Sept. 15 (AP)—In the daytime, he's an army captain. At night he's the football coach of Duquesne university at Pittsburgh. It's the same fellow—Captain Phil Ahwesh.

Captain-Coach Ahwesh is literally doubling in brass these days with Pennsylvania's federalized 28th (bloody bucket) National Guard Division. Though the season doesn't open until Sunday, the system is working out satisfactorily so far.

Commanding an infantry company in person and trying to run a football team by remote control is a job big enough for several men but Ahwesh doesn't seem perturbed.

He came to this sprawling army camp last Monday as commanding officer of a heavy mortar company in the 110th infantry regiment.

During the mornings and afternoons he's been shouting orders to his men. At night, by long distant phone, he's asking his assistants, Doc Skender and Johnny Petchell, if the Dukes are snapping it up and getting on the ball.

Ahwesh stayed at the Duquesne training camp until last Sunday afternoon and barely had time to grab a sandwich before changing into uniform.

## DIMAGGIO, MIZE POUND YANKEES INTO TOP SPOT

By RALPH RODEN  
(Associated Press Sports Writer)

A couple of old pros, Joe DiMaggio and Johnny Mize, are nobly carrying on the New York Yankee tradition of winning the clutch games.

These two veterans, both in their 12th seasons, are supplying the power that has propelled the Yankees to the front in the ding-dong American league pennant fight.

DiMaggio and Mize powered timely home runs yesterday to lead the bombers to a 7-5 victory over the Tigers in the opening game of their vital three-game series at Detroit.

The "jump" triumph moved the world champions to the head of the class with a half-game edge.

The Tigers fell back to second while the surge of the Boston Red Sox was derailed temporarily in St. Louis by the upstart Browns, who now have won eight in a row. The Browns polished off Tom Yawkey's gold-plated boys, 6-3. The Sox now trail by two games.

Hal Newhouse started against the Yankees' Vic Raschi yesterday.

Tigers Start Fast  
Detroit plucked Raschi for four runs in the opening inning as they put together three singles, three walks and a fly ball, but then the old pros started to operate.

DiMaggio led off the second inning with his 29th homer. Hank Bauer walked. Mize followed with his 20th round-tripper, and the Yankees were back in business. They tied the score at 4-4 with a run in the third and pushed two more across in the fourth to take the lead for keeps.

Dick Starr, a former Yankee, stunned the Red Sox with a neat seven-hitter under the lights at St. Louis. The Browns broke a 2-2 tie with three runs in the sixth inning and were never headed.

Dick Kokos began the winning rally with a double. Hank Arft singled Kokos home but was thrown out attempting to reach second. George Stinewiss, another former Yankee, doubled and went to third on a ground out. Owen Friend was intentionally walked and promptly stole second. Starr grounded to short but Vern Stephens threw wild to first and Stinewiss and Friend scampered home with the clinching runs.

The Chicago White Sox turned back the Philadelphia Athletics, 5-2, in the only other American league game. Washington and Cleveland were rained out.

Phils Nip Cards  
The Philadelphia Phillies continued their march to the National league pennant by edging the St. Louis Cardinals, 3-2, in a night game in Philadelphia. Willie Jones singled home Ed Waitkus from third base with two out in the ninth inning to win the game.

The Phils' lead, however, was reduced to six games as the runner-up Brooklyn Dodgers took a doubleheader from the Cincinnati Reds, 6-3, and 5-2.

Home runs by Gil Hodges, Billy Cox, Bruce Edwards and Carl Furillo featured the first-game victory. Preacher Roe gained his 18th victory in the finale but Ralph Branca saved the game in the ninth by striking out two pinch-hitters with the bases loaded.

The New York Giants split a doubleheader with the Pittsburgh Pirates, winning the second game, 6-1, behind the six-hit pitching of Jim Hearn after losing the opener, 7-1, to little Murry Dickson, who also granted only six blows.

Johnny Sain became Boston's third 19-game winner as he pitched the Braves to a 7-4 victory over the Chicago Cubs.

## Eastern League

(By The Associated Press)  
Jim Mangano's hitting is just a sample of the do-or-die fight the late-coming Albany Senators are waging to gain the Eastern league's final playoff.

Mangan slammed his first triple of the year in the ninth inning last night at Binghamton and reached home on an outfield fly. The Senators won, 2-1, and tied the series at 1-1.

The teams tangle in Albany tonight for the third game of their best-of-seven series.

Wilkes-Barre's pennant winners, holding a 2-0 edge, play again at Hartford, where they eked out a 7-6 victory last night.

## Interstate League

Wilmington, Del., Sept. 15 (P)—The Wilmington Blue Rocks, winners of the Interstate league pennant, held a one-game edge over Hagerstown's Braves today in the final playoff series for the Governor's cup.

Wilmington edged Hagerstown 7-6 last night in the first game of a best four-out-of-seven series. The two clubs meet here again tonight.

The Blue Rocks were behind 6-5 going into the ninth inning. But Manager Skeeter Newsome singled with the bases loaded to drive home the tying and winning runs.

Relief hurler Dick England, last of four Wilmington hurlers, got credit for the win while Ray Bradford was charged with the loss.

Besides chasing home the winning runs with his payoff single,

## Westminster Faces GHS In Grid Opener Here This Evening

A promise of ideal football weather for this evening indicates an unusually large turnout for the opening football game on the high school field tonight when the Gettysburg high eleven meets Westminster. The game will start at 8 o'clock.

Tonight's contest promises to be a slam-bang affair all the way. Westminster, boasting a big veteran organization, is confident of handing the Warriors a surprise. On the other hand Coach Shoemaker's outfit has been showing great promise in recent drills and have high hopes of repeating last year's victory over the Marylanders.

Coach Ruby of Westminster revealed this morning that James Zuck, 172-pound letterman tackle, fractured a bone in his foot during a drill Thursday evening and will not be in action tonight.

A large delegation of Westminster fans is reported planning to accompany their team here and it is probable the school band will also make the trip.

Gettysburg's radio station, WGET, will broadcast the game.

FATHER OF NINE KILLED  
Bloomsburg, Pa., Sept. 15 (P)—A father of nine children was killed instantly yesterday when caught by a whirling mill saw blade while at work on a farm near here. He was Antonio Urso, of Mainville.

Newsome had two other hits in five trips to the plate and all told drove home four runs.

## YORK SPRINGS HIGH CRIDERS OPEN SATURDAY

The York Springs high school football squad, under the discerning eyes of their coaches, John Hubley and "Pete" Kemper, are getting set for their initial tilt of the season against Duncannon on Saturday afternoon at 2:30 o'clock on the Duncannon field. This will be a non-league game.

This year's squad includes 17 seniors and the same backfield that saw action last year. One difficulty that Coach Hubley has had to face has been that of holding practice sessions with an incomplete squad. A scrimmage with Biglerville high school recently was of much value in the intensified training program.

Here is the probable starting lineup that Coach Hubley will send against Duncannon on Saturday afternoon: At left end is Wishard, a veteran at that position; left tackle, Lehman, a substitute guard last year; left guard, King, who was a substitute guard last year; center, Taylor, converted from tackle; right guard, Runkle or Smith (Runkle is a veteran in this position while Smith is a 190-pounder who is quick on his feet and shows promise); right tackle, Lott, converted from end, and at right end, Tanger, a substitute end last year.

Only one major change has been made in the backfield. Harbold, a veteran center last year, has been switched to the fullback slot because of his weight and speed. At quarterback again will be E. Guise and at the halfback positions will be last year's veterans, Kemper and Keeler.

Expected to see action will be Reinecker and Sherley at end; G. Guise, Kennedy and Wonders in the backfield, and Cook and Odbert at tackle.

Coach Hubley is striving to develop a good passing attack. In Wishard he has a good passer-receiver. Heaving of the pigskin will be done by Kemper and G. Guise.

Coach Hubley is not anticipating a picnic at Duncannon, but a tough contest. His team lacks the experience that comes from years of play and is not too speedy. Duncannon will use the single wing.

## LOCAL NINE AT GREEN SPRINGS; OTHER PLAYOFFS

Although football will commence to hold the attention of many fans this week, baseball still retains its hold locally with a number of playoff games involving county teams scheduled for the week-end.

Only one Adams County league playoff game is listed for Saturday. New Oxford playing at Fairfield at 2:30. New Oxford won the first game of the series 11-10. The Hanover Moose, who eliminated the Coneyago VFW team in the other semi-final series, will be idle.

Gettysburg and Green Springs will make their second effort to open their semi-final South Penn series Sunday at 2 p.m. at Green Springs. Last Sunday's opener was rained out. Hunterstown, 4-2 victor over Greentown last Sunday, will be the home team for this Sunday's contests.

In the Penn Adams circuit Fairfield will play at Cashtown on Sunday in the second of their best-of-three series. Fairfield won last Sunday 9-0. Bendersville and Wenksville, washed out last week, will open their series at Arendtsville.

The Penn-Maryland league was able to stage both of its scheduled openers in the playoffs last week. Emmitsburg, 8-7 winner last week, will be host to Harney on Sunday while Middleburg, 2-1 victor a week ago, will be host to Wakefield.

Hanover, 1-0 winner at Emmitsburg last week, will clash in their second Pen-Mar loop semi-final game at a site to be announced. McSherrytown will again play at Blue Ridge Summit, seeking to repeat a 2-0 triumph.

## Sports Roundup

New York, Sept. 15 (P)—When the Portsmouth, Va., Cubs clinched the Piedmont league pennant, owner Frank Lawrence got on the phone and badgered the manufacturers until they promised delivery of the flag in time to raise it at the next home game. . . . Asked Frank: "What's the use of waiting until next year to raise the pennant that this year's team won?" . . . Query from "Mr. Inside"—Is Jerry Bush, U. of Toledo basketball coach, concerned about all those person-to-person telephone calls from Louisville to Jack Feeman, a future star? . . . Answer: Dumbo. . . . Tom Dorney, the one-armed tackle, is the fourth former St. Benedict's college footballer to get into Kansas politics. He recently was nominated for sheriff of Wyandotte county. . . . Stan Heath, the former Nevada passing whiz recently cut loose by the Green Bay Packers, has caught on with the Hamilton, Ont., club of the Inter-Provincial league.

X-TRA ORDINARY  
George Keough, Indiana U. ticket manager who spends a large part of his time listening to complaints, got a laugh out of one ticket application from a feminine fan. . . . She enclosed a clipping of an aerial photo of the stadium. . . . A big "X" crayoned on the 50-yard line bore the caption, "Here." . . . An arrow pointed to another "X" marked in the distant end zone and labeled "Not Here." . . . Maybe it's giving away a trade secret to report that she got midfield seats.

CLEANING THE CUFF  
Mel Ott, who always thought Travis Jackson was the best middle man on a double play who ever played for the Giants, now maintains that Al Dark is fully as good on the pivot. . . . Jerome Helluin, Tulane tackle who was "down" to 293 pounds when he reported this fall, says his baby brother, a high school guard, weighs an even 300. . . . Studios Bill Wilkening, Missouri halfback, is taking courses in modern Russian, German composition and conversation, intermediate Russian, German dramatists—19th century, and history of northern renaissance painting. Yeah, we passed ancient Oriental literature at Princeton, too.

Atlanta, Sept. 15 (P)—Little Mae Murray, a quiet Vermont, is a star today and she's giving women's golf what it badly needs. . . . Playing spectacularly, Mae sidelined two of the best golfers in the National Women's Amateur yesterday and goes against veteran Helen Sigel of Philadelphia in the semi-finals today.

Miss Murray was just another of the better amateurs before a one-up victory on the 27th hole over Fay Crocker of Montevideo, Uruguay, and a one-up win over Dot Kiely of Long Beach, Calif.

## DUKE CRIDERS' COACH IS BUSY

Camp Atterbury, Ind., Sept. 15 (P)—In the daytime, he's an army captain. At night he's football coach of Duquesne university at Pittsburgh. It's the same fellow—Captain Phil Ahwesh.

Captain-Coach Ahwesh is literally doubling in brass these days with Pennsylvania's federalized 28th (bloody bucket) National Guard Division. Though the season doesn't open until Sunday, the system is working out satisfactorily so far.

Commanding an infantry company in person and trying to run a football team by remote control is a job big enough for several men but Ahwesh doesn't seem perturbed.

He came to this sprawling army camp last Monday as commanding officer of a heavy mortar company in the 110th infantry regiment.

During the mornings and afternoons he's been shouting orders to his men. At night, by long distant phone, he's asking his assistants, Doc Skender and Johnny Petchell, if the Dukes are snapping it up and getting on the ball.

Ahwesh stayed at the Duquesne training camp until last Sunday afternoon and barely had time to grab a sandwich before changing into uniform.

Opening event is a middleweight affair between Paddy Young of New York and Ernie Durando of New Jersey. The radio will go ABC and the television NBC at 10 daylight or 9 standard.

Speaking for radio will be veteran announcers Don Dunphy and Bill Corum, with Jimmy Powers, sports editor of the New York Daily News, handling the video end. The sponsor is the same as in previous years (Gillette).

For tonight (Friday): NBC—7 One Man's Family, 8:30 (also TV) We the People, 9 Dimension X, Science Fiction; 9:30 Jack Lait Program; 10 Wanted, Documentary. CBS—7:30 Club Bob Crosby; 8 Songs For Sale; 9 Up for Parole; 10:30 Ralph Giannang Orchestra. ABC—7:30 Lone Ranger; 8 Pat Man; 9:30 Ozzie and Harriet; 9:45 Sheriff. ## Today's Talk

By GEORGE MATTHEW ADAMS  
SOMETHING TO LEARN

One of the most valuable traits anyone of us can have is open-mindedness. No matter how many experiences we go through, or how many books we have read, or people we have met, we then know but comparatively little. The body stops growing, but never the mind. The older the mind gets, the richer its texture.

The mind keeps accumulating, setting aside ideas and special knowledge. The housewife may hoard food, and thus keep it from her more worthy neighbor, but the more knowledge anyone hoards, it is bound to be spread around, benefiting far more people than the ones accumulating it.

There is something that we can learn from everyone, no matter how ignorant that one may be. You never know when you may run into someone who may be carrying an idea around with him, about which he may not know the significance, so that we may learn from him, and he from us. Scattered everywhere is knowledge that only needs a knock at its door to reveal many a wonder to us.

I gave myself quite a treat this summer. I brought to my vacation retreat a volume from the Modern Library of Anthony Trollope's two most famous—and perhaps his best—books: "The Warden" and "Barchester Towers." I had promised myself for years to read both, as I had never read anything from this author, who died in 1882. But I was well repaid. For individual characterization, and information upon a unique period of English history, it would be difficult to find two more interesting books.

Old people are interesting, and good teachers, for they have so much to tell. Their minds are mellowed from every sort of experience. And they seem to get great pleasure out of unloading the story of that experience, which is as it should be. The best biographies are written late in life.

Every time you open your eyes into the light of a new day, just remember this—that you have something to learn on that day! People who think they know all that is necessary to know are really on their way out! You can't know too much—especially about yourself.

Tomorrow Mr. Adams will talk on the subject: "Memorable Things."

## Just Folks

OLD BOYS  
When men together meet to play,  
Though fat or slim or bald or gray,  
They drop the fretful robes of men  
And for the time are boys again.

The room with laughter loudly rings.  
A song some gray-haired choir boy sings  
As if the surprise once he wore  
Would fit him still as long before.

The skillful surgeon, grave and wise,  
Has merry twinkles in his eyes.  
And willingly the somberest chaps  
Will put on funny paper caps.

How good it is that grown-up men  
Can bring their boyhood back again,  
And for an hour or two care-free,  
Untroubled and light-hearted be!

## GERMANY WILL PARTICIPATE IN WEST'S DEFENSE

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

The most important problem (and certainly one of the knottiest) before the big three foreign ministers (Britain, France and America) in their current New York meeting has had to do with what part western Germany shall be allotted in the defense of western Europe.

It has been a matter of concern—though not of surprise—to find both British Foreign Secretary Bevin and French Foreign Minister Schuman differing with Secretary of State Acheson on this vital issue.

America has taken the position that a defense program must include German manpower and resources if it is to be effective. The two European allies, having faced the first fierce rush of German armed might in two World Wars, haven't been prepared to go the whole way with this idea.

May Reach Compromise  
However, the indications at this writing are that the conference is likely to achieve a compromise that will bring Germany into the picture on the basis of at least limited participation.

Despite British and French fears, there has been no argument among the big three about the need of German aid in the defense program. It is agreed that there can be no successful defense of western Europe without German participation. The question has been the extent of the aid at this juncture.

Britain and France have hesitated to accept the idea of immediate rearmament of Germany as part of the defense program, although they were understood to favor the strengthening of the German police force so that it could handle internal disorders. However, they now have agreed to participate in a full discussion by all of the Atlantic pact foreign ministers of using German troops in the defense projected under the North Atlantic treaty.

In this connection President Truman's decision to help strengthen western Europe against possible aggression is to be made effective as soon as possible. General Mark W. Clark, chief of the U.S. Army ground forces, says troops to strengthen the U.S. garrison in Europe will begin to arrive in Germany before spring.

So Germany, quite logically, is to be made an integral part of the defense of western Europe, despite her transgressions.

## '50 Peach Harvest Is 285,000 Bu. Short

Harrisburg, Sept. 15 (AP)—Pennsylvania's 1950 peach harvest will drop 285,000 bushels under last year's crop if estimates prove correct.

The federal-state crop reporting service yesterday estimated this year's yield would be 2,166,000 bushels.

The service said the 1950 peach harvest is virtually completed in the Adams-Franklin-York fruit belt while picking is still underway in the Berks-Lehigh and Erie areas.

Apples also are expected to drop. The service estimated the state total this year will be 7,035,000 bushels, or 2,645,000 less than last year. Pear production in the state for 1950 is estimated at 348,000 bushels compared with 385,000 last year.

## MOST DRAFTEES PASS PHYSICALS

Harrisburg, Sept. 15 (AP)—Almost 60 per cent of Pennsylvania's prospective draftees are now passing their pre-induction physical examinations.

Henry M. Gross, state Selective Service director, said the percentage has jumped from 43 per cent two months ago and may even go higher in the future.

"We're beginning to get into the lower age groups and that is sending the rate up," he told a reporter.

Gross said the September call of 3,503 has just about exhausted the 22-year age group. The October call of 3,493 will dip into the 21-year-olds with the November quota of 4,763 reaching the 20-year age group.

Some 13,391 young men were called to take physical examinations in September with 4,917 passing of the 11,068 reported.

Gross explained the difference between the number called and those reporting as men who had recently married, moved or joined a reserve unit without notifying their draft board.

"Teeth, eyes and intelligence tests are taking the largest toll in the pre-induction physical exams," Gross said. Draftees must have 16 teeth, eight uppers and eight lowers.

## FIND TRITIUM IN WATER; KEY FOR H-BOMB

Philadelphia, Sept. 15 (AP)—Two scientists have discovered in ordinary water the colorless gas known as tritium—key explosive for hydrogen bombs.

A little tritium already has been made in American atomic reactors and more is to be produced for H-bombs in reactors still to be built.

The discovery of tritium in water shows promise of two very practical uses now. But there is no existing equipment for extracting tritium from water and such a process is not expected to replace the reactor method of manufacture.

Easily Detected  
The principal reason for this is that—although reactor tritium today is said to cost a half million dollars a pound—the water extraction appears to be both less productive and more expensive.

The first anticipated use of the new water tritium is to discover the secret manufacture of H-bombs. In such work a very small amount of tritium spilled in water will spread widely and as a result of the newly-announced discovery may be detected easily.

A single gram—one 27th of an ounce — dropped into the mighty Amazon river could be traced anywhere downstream and even far out in the Atlantic ocean.

Second Practical Use  
The second practical use of the new detection method would come

in tracing ocean currents right down to the bottom of the sea. Surface waters are known to contain more tritium than very deep water.

The tritium discoveries — announced yesterday at the Temple University Research Institute—were the work of W. F. Libby of the Institute of Nuclear Studies, University of Chicago, and A. V. Grosse, of the Temple Institute.

Tritium has been suspected in ordinary water for more than 20 years and have been partly identified by means of the spectroscopic. The Libby-Grosse discovery was made by using a radioactive counter.

Tritium atoms are radioactive. Tests showed that there are one to two thousand atoms of tritium in every drop of water—the water from your tap, the office drinking fountain, your bath.

**Today's Talk**  
By GEORGE MATTHEW ADAMS

**SOMETHING TO LEARN**  
One of the most valuable traits anyone of us can have is open-mindedness. No matter how many experiences we go through, or how many books we have read, or people we have met, we then know but comparatively little. The body stops growing, but never the mind. The older the mind gets, the richer its texture.

The mind keeps accumulating, setting aside ideas and special knowledge. The housewife may hoard food, and thus keep it from her more worthy neighbor, but the more knowledge anyone hoards, it is bound to be spread around, benefiting far more people than the ones accumulating it.

There is something that we can learn from everyone, no matter how ignorant that one may be. You never know when you may run into someone who may be carrying an idea around with him, about which he may not know the significance, so that we may learn from him, and he from us. Scattered everywhere is knowledge that only needs a knock at its door to reveal many a wonder to us.

I gave myself quite a treat this summer. I brought to my vacation retreat a volume from the Modern Library of Anthony Trollope's two most famous—and perhaps his best—books: "The Warden" and "Bartholomew Towers." I had promised myself for years to read both, as I had never read anything from this author, who died in 1882. But I was well repaid. For individual characterization, and information upon a unique period of English history, it would be difficult to find two more interesting books.

Old people are interesting, and good teachers, for they have so much to tell! Their minds are mellowed from every sort of experience. And they seem to get great pleasure out of unloading the story of that experience, which is as it should be. The best biographies are written late in life.

Every time you open your eyes into the light of a new day, just remember this—that you have something to learn on that day! People who think they know all that is necessary to know are really on their way out! You can't know too much—especially about yourself.

Tomorrow Mr. Adams will talk on the subject: "Memorable Things."

**Just Folks**  
OLD BOYS  
When men together meet to play, Though fat or slim or bald or gray, They drop the trifling roles of men And for the time are boys again.

The room with laughter loudly rings.  
A song some gray-haired choir boy sings  
As if the surplice once he wore Would fit him still as long before.

The skillful surgeon, grave and wise,  
Has merry twinkles in his eyes.  
And willingly the somberest chaps Will put on funny paper caps.

How good it is that grown-up men Can bring their boyhood back again,  
And for an hour or two care-free, Untroubled and light-hearted be!

**GERMANY WILL PARTICIPATE IN WEST'S DEFENSE**

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

The most important problem (and certainly one of the knottiest) before the big three foreign ministers (Britain, France and America) in their current New York meeting has had to do with what part western Germany shall be allotted in the defense of western Europe.

It has been a matter of concern—though not of surprise—to find both British Foreign Secretary Bevin and French Foreign Minister Schuman differing with Secretary of State Acheson on this vital issue.

America has taken the position that a defense program must include German manpower and resources if it is to be effective. The two European allies, having faced the first fierce rush of German armed might in two World Wars, haven't been prepared to go the whole way with this idea.

May Reach Compromise  
However, the indications at this writing are that the conference is likely to achieve a compromise that will bring Germany into the picture on the basis of at least limited partnership.

Despite British and French fears, there has been no argument among the big three about the need of German aid in the defense program. It is agreed that there can be no successful defense of western Europe without German participation. The question has been the extent of the aid at this juncture.

Britain and France have hesitated to accept the idea of immediate rearmament of Germany as part of the defense program, although they were understood to favor the strengthening of the German police force so that it could handle internal disorders. However, they now have agreed to participate in a full discussion by all of the Atlantic pact foreign ministers of using German troops in the defense projected under the North Atlantic treaty.

In this connection President Truman's decision to help strengthen western Europe against possible aggression is to be made effective as soon as possible. General Mark W. Clark, chief of the U.S. Army ground forces, says troops to strengthen the U.S. garrison in Europe will begin to arrive in Germany before spring. So Germany, quite logically, is to be made an integral part of the defense of western Europe, despite her transgressions.

**'50 Peach Harvest Is 285,000 Bu. Short**

Harrisburg, Sept. 15 (AP)—Pennsylvania's 1950 peach harvest will drop 285,000 bushels under last year's crop if estimates prove correct.

The federal-state crop reporting service yesterday estimated this year's yield would be 2,366,000 bushels.

The service said the 1950 peach harvest is virtually completed in the Adams-Franklin-York fruit belt while picking is still underway in the Berks-Lehigh and Erie areas.

Apples also are expected to drop. The service estimated the state total this year will be 7,035,000 bushels, or 2,645,000 less than last year. Pear production in the state for 1950 is estimated at 348,000 bushels compared with 385,000 last year.

**MOST DRAFTEES PASS PHYSICALS**

Harrisburg, Sept. 15 (AP)—Almost 60 per cent of Pennsylvania's prospective draftees are now passing their pre-induction physical examinations.

Henry M. Gross, state Selective Service director, said the percentage has jumped from 43 per cent two months ago and may even go higher in the future.

"We're beginning to get into the lower age groups and that is sending the rate up," he told a reporter.

Gross said the September call of 3,503 has just about exhausted the 22-year age group. The October call of 3,493 will dip into the 21-year-olds with the November quota of 4,763 reaching the 20-year age group.

Some 13,391 young men were called to take physical examinations in September with 4,917 passing of the 11,668 reporting.

Gross explained the difference between the number called and those reporting as men who had recently married, moved or joined a reserve unit without notifying their draft board.

"Teeth, eyes and intelligence tests are taking the largest toll in the pre-induction physical exams," Gross said. Draftees must have 16 teeth, eight uppers and eight lowers.

**FIND TRITIUM IN WATER; KEY FOR H-BOMB**

Philadelphia, Sept. 15 (AP)—Two scientists have discovered in ordinary water the colorless gas known as tritium—key explosive for hydrogen bombs.

A little tritium already has been made in American atomic reactors and more is to be produced for H-bombs in reactors still to be built. The discovery of tritium in water shows promise of two very practical uses now. But there is no existing equipment for extracting tritium from water and such a process is not expected to replace the reactor method of manufacture.

Easily Detected  
The principal reason for this is that—although reactor tritium today is said to cost a half million dollars a pound—the water extraction appears to be both less productive and more expensive.

The first anticipated use of the new water tritium is to discover the secret manufacture of H-bombs. In such work a very small amount of tritium spilled in water will spread widely and as a result of the newly-analyzed discovery may be detected easily.

A single gram—one 27th of an ounce—dropped into the mighty Amazon river could be traced anywhere downstream and even far out in the Atlantic ocean.

Second Practical Use  
The second practical use of the new detection method would come

# NEW TAX WILL HIT PAYCHECKS BY OCTOBER 1

By JAMES MARLOW  
Washington, Sept. 15 (AP)—Everything is ready — when Congress gives the go-ahead—for the boss to take the new and higher tax out of your paycheck, starting Oct. 1.

Congress hasn't yet finally approved the bill to do that. And therefore the President hasn't been able to sign it into law. But there's plenty of time to do that before Oct. 1. And no hitch is expected.

Ever since 1943 the boss, under law, has been withholding taxes from your pay. He has been using a table provided by the Internal Revenue Bureau's tax collectors. This table shows:

**New Tables Needed**  
How much tax should be deducted from each worker's pay, depending on how much he makes and how many exemptions he has, such as a wife or a dependent child.

With this new boost going into effect, new tables were needed. As mentioned, the deductions are supposed to start Oct. 1 although Congress has not yet formally approved the new tax.

If the tax collectors waited until this formal approval was given,

they wouldn't have the time to get the new tables set up, printed, and mailed out to employers all over the United States by Oct. 1.

So the tax collectors had to take a chance—but not much of a chance, as you'll see—and act as though the tax bill already had been approved. They had 3,000,000 copies of the tables printed.

These have been shipped out to the 64 district offices of the Internal Revenue Bureau, waiting to be mailed to employers in each district. And they will be mailed as soon as the tax raise becomes law.

**Here's The Background**  
This is the background on what has happened:

Before the Korean shooting started, the House passed a bill to cut the excise tax on such things as theater tickets, Women's handbags, and so on. This was strictly a bill to cut taxes.

This bill then went over to the Senate for approval. But then we got into the Korean fight and had to start re-arming. To pay for this re-arming, the President said taxes had to be raised: on individuals and corporations.

Since this meant more taxes, not less, were needed, the Senate junked the House bill and got to work on one of its own. The Senate bill left excise taxes uncut but raised the tax on individuals and businesses.

**Last-Ditch Stand**  
This bill passed the Senate Sept. 1. It was understood the

House would approve this Senate bill and that it would become law. Since this seemed clear and understood, the tax collectors went ahead and had the new tables printed, all based on the Senate bill.

Some members of the House kicked up their heels, not wanting to approve the Senate bill unless both House and Senate agreed to impose an excess profits tax on corporations right away.

This was looked upon as a last-ditch stand, not a real stumbling block, for President Truman and his Democratic congressional leaders agreed there should be an excess profits tax but that it can be passed next January. The House, though, went on record as wanting action before then. But it did not hold up the general tax bill.

McClure, Pa., Sept. 15 (AP)—Snyder county's traditional bean soup and homecoming celebration today looked forward to speeches by Gov. James H. Duff and John S. Fine. Speeches tomorrow by the two leading Republican candidates, seeking election as U. S. senator and governor respectively, are expected to top the activities at this annual event now in its 50th year.

CATTLE—Although fresh receipts estimated at 800 head formed the smallest Thursday count in four weeks, the week to date movement was the largest since mid-November, 1949. It still figured around 30 per cent smaller than the count of the same week a year ago. In addition to the fresh receipts, approximately 700 head were held from earlier in the week.

Included in salable supply was equivalent of 24 loads of slaughter steers and 11 loads of stock cattle. Balance of run consisted mainly of cows with about a normal supply of bulls included and a relatively small number of heifers. Outside demand again rather broad and trading fairly active throughout the session.

Medium and good graded-on-grass and short-fed slaughter steers, 1,100-1,300 pounds, formed bulk of steer receipts. Dry-fed offerings scarce. Sales of all classes strong to mostly 25-50 cents higher. One 3-head lot of good and choice 750-pound stall-fed yearlings top \$33. Bulk of mixed medium and good, \$27—28.25; small lots, to \$28.40; some common down to \$25.

There was no measurable change in the selling level for heifers. Old head and small lot shipments of common and medium offerings predominated, \$20—25. Few small lots of low-good heifers, \$25.

Cows shared the upturn on steers and moved scaleward on a strong to 50c. higher compared with Monday. Good cows, \$22—24.50; common and medium, \$20—22. Canners and cutters, \$14—20, bulk \$18 up; odd shelly canners, \$13 and under.

CALVES—Receipts the first 4 days of this week fell as little short of the count for the same period last week but measured about as large an increase over the corresponding week last year. Good and choice grades met a broad demand at steady prices throughout the session. A relatively small number of other grades moved easily and then the outlet became very narrow. Good and choice vealers and slaughter calves, \$29—29.50, top \$34.50; common and medium, \$18—28, culls, \$10—18, mostly \$14 up.

HOGS—Receipts for the week figured 45 per cent larger than a week ago but continued to fall short of same period last year. This week's count smaller by 9 per cent. Dealings fairly active but barrows and gilts declined 30c. from yesterday's early trade or 25 cents from the close. Sows, 25c. lower. Good and choice, 180-220-pound barrows and gilts, \$22.75—23, practical top, \$23; 220-240 pounds, \$22—22.50; 240-260 pounds, \$21.25—22; 260-300 pounds, \$20—20.75; heavierweights, \$20 down depending on weight and condition. Lighter offerings, 120-140 pounds, \$18.25—18.75; 140-160 pounds, \$19.25—19.75; 160-180 pounds, \$21—22. Sows less than 400 pounds, \$19—19.25, but a few old choice around 350-pound and lighter, \$19.75; good 400-450 pound kind cleared at \$17.75—18.25; heavierweights, \$17.25 down. Stags marked \$5 under price of same weight sows and garbage-fed hogs discounted \$2 from price of same weight grade-feds.

## Sunday School Lesson

By

Rev. Dr. Howard R. and Margaret C. Gold

**JAMES, LEADER IN THE JERUSALEM CHURCH**  
Acts 15:13-20; Galatians 2:9-12  
Memory selection: Be doers of the word, not hearers only, deceiving yourselves. James 1:22.  
It is interesting to see in studying the lives and influence of early Christian pioneers how a group of average men and women could in a few decades change the course of history. They were not learned, did not argue about creed or doctrine

and were mainly concerned about practical church affairs. However, they succeeded in changing Christianity from a Jewish sect to a world wide religion.

This was only accomplished after considerable confusion and debate. Problems arose in the various congregations outside of Jerusalem between the Jewish and Gentile members of "The Way." The question that troubled both leaders and people was whether or not Gentiles

should be circumcised and become good Jews before being accepted as Christians. Most of the gentile converts were not concerned about Jewish law or ritual and believed that they would be saved by faith alone. Paul, Barnabas and Peter shared this same belief and supported them. Those who insisted on strictly adhering to old Jewish practices were called "Judaizers" or the party of the circumcision.

**Church Leader**  
A new leader had succeeded the Apostle Peter in the church at Jerusalem. That man was James, oldest brother of Jesus. As head of the elders he served as chairman of the Council in Jerusalem when the matter of the basis of church membership was referred to it. The whole matter came to a climax at Antioch so Paul, Barnabas and delegates

from the congregation journeyed to the Holy City to take up the issue officially. This was exactly the proper procedure. And James proved himself an excellent administrator. His sound judgment and wise handling of a very delicate situation saved the Apostolic church from a split.

James was by nature a conservative man and it was difficult for him to break with tradition. But tradition is really just a group habit of thinking. Christ teaches that we must live by truth rather than by law or tradition. When new truths are discovered such as were presented at the Council in Jerusalem, then traditions must be changed or abandoned.

Before the assembled apostles and elders Peter made a stirring address defending the liberty of gentile con-

verts. Then Paul and Barnabas testified concerning the signs and wonders that had been wrought among the Gentiles. Naturally some of the Pharisaic group were unconvinced.

# SHE'LL NEVER GRADUATE

This little girl is a "beginner." She has just entered the SCHOOL that will teach her HOW TO LIVE.

She'll never graduate! No one ever does! For religious education is different from secular education. It has to fit its pupils for *living every day the very best way*. In such a course, there just isn't any point at which the pupil can be sure he has enough "learning" to put away his books.

Therefore the Church Schools of our community provide classes for all ages. Every Sunday, while tiny tots are listening to Bible stories, grown-ups are studying the practical application of Bible truths in life.

Religious education should be a family activity. Don't just send your children to Church School. Come with them.

They need religious education because they must learn how to live. And you need it too, for life's richest possibilities are still ahead of you.

### JAMES, LEADER IN THE JERUSALEM CHURCH

Acts 15:13-20; Galatians 2:9-12

Memory selection: Be doers of the word, not hearers only, deceiving yourselves, James 1:22.

It is interesting to see in studying the lives and influence of early Christian pioneers how a group of average men and women could in a few decades change the course of history. They were not learned, did not argue about creed or doctrine

and were mainly concerned about practical church affairs. However, they succeeded in changing Christianity from a Jewish sect to a world wide religion.

This was only accomplished after considerable confusion and debate. Problems arose in the various congregations outside of Jerusalem between the Jewish and Gentile members of "The Way." The question that troubled both leaders and people was whether or not Gentiles

should be circumcised and become good Jews before being accepted as Christians. Most of the gentle converts were not concerned about Jewish law or ritual and believed that they would be saved by faith alone. Paul, Barnabas and Peter shared this same belief and supported them. Those who insisted on strictly adhering to old Jewish practices were called "Judaizers" or the party of the circumcision.

### Church Leader

A new leader had succeeded the Apostle Peter in the church at Jerusalem. That man was James, oldest brother of Jesus. As head of the elders he served as chairman of the Council in Jerusalem when the matter of the basis of church membership was referred to it. The whole matter came to a climax at Antioch so Paul, Barnabas and delegates

from the congregation journeyed to the Holy City to take up the issue officially. This was exactly the proper procedure. And James proved himself an excellent administrator. His sound judgment and wise handling of a very delicate situation saved the Apostolic church from a split.

James was by nature a conservative man and it was difficult for him to break with tradition. But tradition is really just a group habit of thinking. Christ teaches that we must live by truth rather than by law or tradition. When new truths are discovered such as were presented at the Council in Jerusalem, then traditions must be changed or abandoned.

Before the assembled apostles and elders Peter made a stirring address defending the liberty of gentile con-

verts. Then Paul and Barnabas testified concerning the signs and wonders that had been wrought among the Gentiles. Naturally some of the Pharisaic group were unconvinced.

James was not daring, but cautious. He was fully prepared for this emergency. He based his judgment not only on the evidence presented but on the authority of Old Testament prophecy. In summing up the matter and quoting from Amos he proposed that "we trouble not them that from among the Gentiles turn to God."

# NEW TAX WILL HIT PAYCHECKS BY OCTOBER 1

By JAMES MARLOW  
Washington, Sept. 15 (P) — Every-thing is ready — when Congress gives the go-ahead—for the boss to take the new and higher tax out of your paycheck, starting Oct. 1.

Congress hasn't yet finally ap- proved the bill to do that. And there- fore the President hasn't been able to sign it into law. But there's plenty of time to do that before Oct. 1. And no hitch is expected.

Ever since 1943 the boss, under law, has been withholding taxes from your pay. He has been using a table provided by the Internal Revenue Bureau's tax collectors. This table shows

New Tables Needed  
How much tax should be deducted from each worker's pay, depending on how much he makes and how many exemptions he has, such as a wife or a dependent child.

With this new boost going into effect, new tables were needed. As mentioned, the deductions are sup- posed to start Oct. 1 although Con- gress has not yet formally approved the new tax.

If the tax collectors waited until this formal approval was given,

they wouldn't have the time to get the new tables set up, printed, and mailed out to employers all over the United States by Oct. 1.

So the tax collectors had to take a chance—but not much of a chance, as you'll see—and act as though the tax bill already had been approved. They had 3,000,000 copies of the tables printed.

These have been shipped out to the 64 district offices of the Internal Revenue Bureau, waiting to be mailed to employers in each district. And they will be mailed as soon as the tax raise becomes law.

Here's The Background  
This is the background on what has happened.

Before the Korean shooting started, the House passed a bill to cut the excess tax on such things as theater tickets, Women's hand- bags, and so on. This was strictly a bill to cut taxes.

This bill then went over to the Senate for approval. But then we got into the Korean fight and had to start re-arming. To pay for this re-arming, the President said taxes had to be raised on individuals and corporations.

Since this meant more taxes, not less, were needed, the Senate junked the House bill and got to work on one of its own. The Senate bill left excess taxes uncut but raised the tax on individuals and busi- nesses.

Last-Ditch Stand  
This bill passed the Senate Sept. 1. It was understood the

House would approve this Senate bill and that it would become law. Since this seemed clear and under- stood the tax collectors went ahead and had the new tables printed all based on the Senate bill.

Some members of the House kicked up their heels, not want- ing to approve the Senate bill unless both House and Senate agreed to impose an excess profits tax on corporations right away.

This was looked upon as a last- ditch stand not a real stumbling block for President Truman and his Democratic congressional lead- ers agreed there should be an ex- cess profits tax but that it can be passed next January. The House though went on record as wanting action before then. But it did not hold up the general tax bill.

McClure, Pa. Sept. 15 (P)—Snyder county's traditional oyster soup and homecoming celebration took a look- forward to speeches by Gov. James H. Duff and John S. Fine. Speeches tomorrow by the two leading Re- publican candidates seeking election as U. S. senator and governor re- spectively are expected to top the activities at this annual event now in its 59th year.

Soldier, Gone "To Help God," Writes Advice To Daughters

Collingdale, Pa., Sept. 15 (AP)—A young soldier in Korea took a piece of notepaper from his helmet and wrote a letter to his two small daughters back home.

That letter was delivered yesterday to the home of six-year-old Rose Marie McCormick and her sister, Joan, three.

Three days ago, their mother was notified that Pfc. John J. McCormick, 28, paratrooper veteran of World War II and infantryman in Korea, had been killed in action.

This is what Private McCormick wrote to "Dear Joannie and Rose Marie":

"This is daddy. I want you to listen and pay attention while mommie reads this to you. Just try and make believe I was there, talking to you."

"Joannie, I don't think you'll remember me because you were a little baby when I had to go away, but I used to sit and hold you a lot, and when you were a bad little girl, I used to make you sit in a chair until you were good, but I always loved you a lot and I was very proud of you."

**Fighting "Bad Men"**

"Rose Marie, you should remember me because I used to take you out with me a lot, and I used to buy you a lot of candy and sodas, and I used to feel so good when people used to say you had eyes like mine. Remember the little puppy I bought you? Your mummy used to tie a little pink ribbon around its neck and you used to carry it in your arms. You looked awfully cute."

"I want you both to know that I'd be with you if I could, but there are a lot of bad men in the world, and if they were allowed to do what they wanted to do, little girls like you wouldn't be allowed to go to church on Sunday or be able to go to the school you wanted to."

"So I have to fight these men and keep them from coming where you and mummy live. It might take

a long while, and maybe daddy will have to go and help God up in heaven, and if I do, I always want you both to be good for mummy, because she is the best mummy in the whole wide world."

"She has always taken care of you while I have been away. You see, kids, I happened to be caught in two wars inside 10 years, and the reason I am where I am today is because I am fighting for what I think is right."

**"Stand Up For Right"**

"That's one thing I always want both of you to remember. If your conscience tells you something is right, always stand up for it. You might be ridiculed for doing so, but in the long run you'll always find out that people respect you more for doing so."

"When you grow up to be young ladies, don't ever forget all that mummy has done for you. She has often gone without clothes for herself so that both of you could have nice things. I want you to do as she says; go to church on Sundays and you can always pray for daddy."

"So remember, kids, when you grow up, save this letter in case I'm not there to talk to you, and try and remember all I am saying, for it's for your good, and because I love you and mummy so much."

"I'll be in a hole, fighting, in a few days, in a place called Korea, so I'm sending you all the love that's in my heart on this sheet of paper. I carry your picture, and mummy's next to my heart, and if I have to go help God, you'll know that the last thought I had on this earth was for the two of you and mummy. All my love and kisses. Be good and God bless you, Daddy."

Sunday School Lesson

(Continued from Page 7)

Unity was great and his decision of vast importance to the church at large.

At this Jerusalem conference James set a precedent for all church conventions. Christian love and tolerance dominated the sessions. All members and delegates realized that each group of believers must compromise in the non-essentials. Rules governing daily living must be secondary to their fundamental beliefs about God and Christ. So James ruled that a letter be sent to Antioch and all congregations asking that the Gentile members refrain from certain practices that would offend their Jewish brethren. This voluntary abstinence seemed an excellent solution and would preserve church harmony. What a fine Christian attitude James displayed.

**Unity**

Just when James became a follower of Christ is not known exactly but not during Jesus' life for His "brethren" did not believe in His mission. Later James was devoted to the Christian cause and met a martyr's death. His humility is seen in every action and in his epistle he signs himself "James, the bond-servant of the Lord Jesus Christ."

One essential thing was accomplished at Jerusalem under the radical Paul and conservative James—Unity within Christianity. The Church of Jesus Christ unites all men through the grace and love of the Saviour. Therefore Christian love and forbearance must control all church relations. Sometimes we must discard old customs and church practices and accept new policies in the interest of church progress. This is as true today as in the Apostolic Age.

"We are not divided, All one body we, One in hope and doctrine, One in charity."

**Questions On The S. S. Lesson**

1. What problem arose in the early churches?
2. How did the Gentiles feel?
3. Who agreed with and defended their position?
4. Where was the issue discussed and decided?
5. Who served as chairman of this conference?
6. What did his decision assure?
7. What can sometimes be a stumbling block to progress?

**Answers**

1. Whether gentile converts should conform to Jewish law.
2. They would be saved by faith only.
3. Paul, Barnabas and Peter.
4. Council in Jerusalem.
5. James.
6. Unity within the Church.
7. Tradition.

## BASS STOCKED IN SPORTSMEN'S NEW FARM POND

Due to the inclement weather, the outdoor corn bake which had been planned prior to the monthly meeting of the Littlestown Fish and Game association Wednesday evening, at their farm in Germany township, had to be held in the club house. Approximately 75 members were in attendance.

Business was conducted by the president, Dr. Joseph R. Riden, and G. Richard Knipple presented the secretary's report. Dr. Richard M. Phreaner gave a report on the progress of the dam which has been built by the organization on its farm. It was noted that as a result of this week's rainfall, the water that is flowing into the dam increased about four inches in depth between Tuesday and Wednesday evenings.

Bernard Dillman, who is the local club's representative to the Adams county Sportsmen's association, reported that black bass had been stocked by the state in Marsh Creek on Wednesday.

The trap committee consisting of

monthly meeting of the Girls' Guild at the church; Thursday, 7:30 p.m., senior choir.

Typhoon was the ancient Greek god of wind storms.

Karl Bankert, Robert L. Crouse and Robert J. Stonestier was instructed to draw up plans and arrange for the trap to be placed on the farm for the shoot that is to be held in the near future.

**New Grounds Committee** There being some confusion about the ownership of the Littlestown Community Honor roll, the story of the honor roll was reviewed. It was stated that the Fish and Game association erected the honor roll, and the flag pole and had the shrubbery planted during World War II. After the honor roll was dedicated, it was turned over to the borough. The Sportsmen are now turning over the property that remains, namely, the shrubbery and flag pole, to the Veterans' organizations to use as they see fit in connection with the permanent memorial which they are having erected.

It was announced that assistance of the members is needed to trim trees on the farm. Any of the members who can help Saturday afternoon are requested to report at the farm at 1 o'clock.

A new grounds committee was appointed Wednesday by the president. The committee includes George Dehoff, Ivan Arentz, Walter P. Crouse and Elmer W. M. Duttera. Any member of the club in the future, who can spare time to help in improving the grounds is asked to contact this committee for instructions about work to be done.

The corn bake and program of the evening was in charge of Earl Brumgard, Raymond Reed, Harry O. Harner, William H. Renner and Roger Page. The next meeting will be held at the farm on Wednesday evening, October 11. The social committee will include W. E. Stites, Paul Renner and Richard Staley.

**CLASS VISITS TEACHER**

The Kump Bible class at St. Paul's Lutheran church of which Mrs. Walter Groce is the teacher paid a visit to the home of their former teacher, Mrs. Raymond Kump, South Queen street extended, on Wednesday evening. After an evening of visiting, refreshments were served to the group by Mrs. Kump's daughter, Mrs. Paul Aumen, Hanover, and

### BASS STOCKED IN SPORTSMEN'S NEW FARM POND

Due to the inclement weather, the outdoor corn bake which had been planned prior to the monthly meeting of the Littlestown Fish and Game association Wednesday evening, at their farm in Germany township, had to be held in the club house. Approximately 75 members were in attendance.

Business was conducted by the president, Dr. Joseph R. Riden, and G. Richard Knipple presented the secretary's report. Dr. Richard M. Phreaner gave a report on the progress of the dam which has been built by the organization on its farm. It was noted that as a result of this week's rainfall, the water that is flowing into the dam increased about four inches in depth between Tuesday and Wednesday evenings.

Bernard Dillman, who is the local club's representative to the Adams county Sportsmen's association, reported that black bass had been stocked by the state in Marsh Creek on Wednesday.

The trap committee consisting of monthly meeting of the Girls' Guild at the church; Thursday, 7:30 p.m., senior choir.

**St. John's Lutheran church**, the Rev. Kenneth D. James, pastor, Sunday school, 9 a.m.; Harvest Home, 10:15 a.m., sermon, "Lessons of the Harvest." The Golden Deeds class will receive the donations and decorate the chancel. Special coal fund offering; Christian Endeavor, 6:30 p.m., leader, Fred King; devotions in charge of Joanne States; Tuesday, 8 p.m., monthly meeting of the Brotherhood at the home of Fred King, West King street; Golden Deeds class will also meet Tuesday night.

Typhoon was the ancient Greek god of wind storms.

Karl Bankert, Robert L. Crouse and Robert J. Stonieser was instructed to draw up plans and arrange for the trap to be placed on the farm for the shoot that is to be held in the near future.

#### New Grounds Committee

There being some confusion about the ownership of the Littlestown Community Honor roll, the story of the honor roll was reviewed. It was stated that the Fish and Game association erected the honor roll, and the flag pole and had the shrubbery planted during World War II. After the honor roll was dedicated, it was turned over to the borough. The Sportsmen are now turning over the property that remains, namely, the shrubbery and flag pole, to the Veterans' organizations to use as they see fit in connection with the permanent memorial which they are having erected.

It was announced that assistance of the members is needed to trim trees on the farm. Any of the members who can help Saturday afternoon are requested to report at the farm at 1 o'clock.

A new grounds committee was appointed Wednesday by the president. The committee includes George Dehoff, Ivan Arentz, Walter F. Crouse and Elmer W. M. Dutera. Any member of the club in the future, who can spare time to help in improving the grounds is asked to contact this committee for instructions about work to be done. The corn bake and program of the evening was in charge of Earl Brumbach, Raymond Reed, Harry O. Harner, William H. Renner and Roger Page. The next meeting will be held at the farm on Wednesday evening, October 11. The social committee will include W. E. Stites, Paul Renner and Richard Staley.

#### CLASS VISITS TEACHER

The Kump Bible class at St. Paul's Lutheran church of which Mrs. Walter Groce is the teacher paid a visit to the home of their former teacher, Mrs. Raymond Kump, South Queen street extended, on Wednesday evening. After an evening of visiting, refreshments were served to the group by Mrs. Kump's daughter, Mrs. Paul Aumen, Hanover, and

her daughter-in-law, Mrs. John Kump, Littlestown.

Soldier, Gone "To Help God,"  
Writes Advice To Daughters

Collingdale, Pa., Sept. 15 (AP)—A young soldier in Korea took a piece of newspaper from his helmet and wrote a letter to his two small daughters back home.

That letter was delivered yesterday to the home of six-year-old Rose Marie McCormick and her sister, Joan, three.

Three days ago, their mother was notified that Pfc. John J. McCormick, 28, paratrooper veteran of World War II and infantryman in Korea, had been killed in action.

This is what Private McCormick wrote to "Dear Joannie and Rose Marie":

"This is Daddy. I want you to listen and pay attention while mummy reads this to you. Just try and make believe I was there, talking to you."

"Joannie, I don't think you'll remember me because you were a little baby when I had to go away, but I used to sit and hold you a lot, and when you were a bad little girl, I used to make you sit in a chair until you were good, but I always loved you a lot and I was very proud of you."

"Fighting 'Bad Men'"

Rose Marie, you should remember me because I used to take you out with me a lot, and I used to buy you a lot of candy, and sodas, and I used to feel so good when people used to say you had eyes like mine. Remember the little puppy I bought you? Your mummy used to tie a little pink ribbon around its neck and you used to carry it in your arms. You looked awfully cute."

"I want you both to know that I'd be with you if I could, but there are a lot of bad men in the world, and if they were allowed to do what they wanted to do, little girls like you wouldn't be allowed to go to church on Sunday or be able to go to the school you wanted to."

"So I have to help fight these men and keep them from coming where you and mummy live. It might take

a long while, and maybe daddy will have to go and help God up in heaven, and if I do, I always want you both to be good for mummy, because she is the best mummy in the whole wide world."

"She has always taken care of you while I have been away. You see, kids, I happened to be caught in two wars inside 10 years, and the reason I am where I am today is because I am fighting for what I think is right."

"Stand Up For Right"

"That's one thing I always want both of you to remember. If your conscience tells you something is right, always stand up for it. You might be ridiculed for doing so, but in the long run you'll always find out that people respect you more for doing so."

"When you grow up to be young ladies, don't ever forget all that mummy has done for you. She has often gone without clothes for herself so that both of you could have nice things. I want you to do as she says; go to church on Sundays and you can always pray for daddy."

"So remember, kids, when you grow up, save this letter in case I'm not there to talk to you, and try and remember all I am saying. For it's for your good, and because I love you and mummy so much."

"I'll be in a hole, fighting, in a few days, in a place called Korea, so I'm sending you all the love that's in my heart on this sheet of paper. I carry your picture, and mummy's next to my heart, and if I have to go help God, you'll know that the last thought I had on this earth was for the two of you and mummy. All my love and kisses. Be good and God bless you. Daddy."

Sunday School Lesson

(Continued from Page 7)

stibility was great and his decision of vast importance to the church at large.

At this Jerusalem conference James set a precedent for all church conventions. Christian love and tolerance dominated the sessions. All members and delegates realized that each group of believers must compromise in the non-essentials. Rules governing daily living must be secondary to their fundamental beliefs about God and Christ. So James ruled that a letter be sent to Antioch and all congregations asking that the Gentile members refrain from certain practices that would offend their Jewish brethren. This voluntary abstinence seemed an excellent solution and would preserve church harmony. What a fine Christian attitude James displayed.

Unity

Just when James became a follower of Christ is not known exactly but not during Jesus' life for His "brethren" did not believe in His mission. Later James was devoted to the Christian cause and met a martyr's death. His humility is seen in every action and in his epistle he signs himself "James, the bond-servant of the Lord Jesus Christ."

One essential thing was accomplished at Jerusalem under the radical Paul and conservative James—Unity within Christianity. The Church of Jesus Christ unites all men through the grace and love of the Saviour. Therefore Christian love and forbearance must control all church relations. Sometimes we must discard old customs and church practices and accept new policies in the interest of church progress. This is as true today as in the Apostolic Age.

"We are not divided. All one body we, all one hope and doctrine, one in charity."

## FUNERALS OF TRAIN WRECK VICTIMS BEGIN

By FRANK O'BRIEN  
Wilkes-Barre, Pa., Sept. 15 (AP)—The mourning Wyoming valley today begins to bury its 33 soldier victims of a troop train wreck on a mist-shrouded Ohio flatland.

Those killed in the crash were all residents of Wilkes-Barre and surrounding communities in this hard coal mining region of northeastern Pennsylvania.

Neighbors in civilian life, they were inducted into federal service last week with other members of the 109th Field Artillery, a unit of Pennsylvania's 28th National Guard Division.

**50,000 Line Streets**  
A few hours after they left Wilkes-Barre bound for Camp Atterbury, Ind., they met death as the Pennsylvania railroad's "Spirit of St.

Louis" roared out of the fog and struck the rear of their stalled troop train near Coshocton, Ohio.

Yesterday, a slowly-moving funeral train brought the bodies of the 33 victims back home to the stunned valley that had bid them a tearful wartime farewell such a short time before.

Mayor Luther M. Kniffen called for all business to cease in this city of 85,000 as the train arrived. Silent, shocked crowds at the station and along the streets traversed by the funeral procession numbered more than 50,000.

**Families At Armory**  
Only an occasional sob was heard as weapons carriers driven at foot pace bore the flag-draped coffins to Kingston armory. Along the streets, flags at half mast drooped in windless air, and black bunting on many buildings reflected a heavy-clouded sky.

The families of the dead—ranging from the destitute to the well-to-do—waited at the armory. The weapons carriers drove inside with their numbered burdens to numbered spaces.

There was no ceremony at the

## Emmitsburg

The Emmitsburg Town Council held its September meeting Tuesday night at the town office in the Fire hall. Burgess Thornton Rodgers presided with Members Lloyd Ohler and Wales Rightmire in attendance with Miss Louise Sebald, secretary. The burgess reported the sewer connections on North Seton avenue completed. A number of projects

armory. The individual families within minutes began to leave, the carriers bearing their dead before them to homes or funeral parlors. Thus far 32 families have requested full or partial military honors at the interments.

**First Funeral Today**  
The first funeral today will be that of Private First Class Leonard Balonis, of Wilkes-Barre. Four other interments were scheduled for today, 23 for Saturday, and four on Monday.

The 967th Field Artillery, of Wilkes-Barre, will provide 24-hour honor guards at homes and funeral parlors.

The body of only one victim will be buried out of the state. He is Recruit Frank Martinez, of Wilkes-Barre, whose mother, Mrs. Louella Martinez lives at 810 Fox street, the Bronx, New York. Martinez' body was sent to New York last night.

K. L. Sheeler, general claim agent of the Pennsylvania railroad conferred today with veterans' groups and the Wilkes-Barre Bar association on compensating the families of the dead. He said the railroad would not use the fact the government is technically operating all United States railroads to avoid payment of indemnities.

are being conducted but not completed. One of these is the opening and widening of the small stream that runs parallel to North Seton avenue, in the rear of the properties on the west side of the avenue. This stream is on the Fitzgerald property and is being cleaned and widened with Mrs. Fitzgerald's permission in order to eliminate the overflow of this stream into Flat run. The commissioners decided to have the alleys and gutters of the town cleaned in the near future.

**Lutheran Women Working**  
A small group of Lutheran church women met Wednesday afternoon at the parish house and jarred 150 quarts of peaches, apples and tomatoes. They processed three bushels of peaches, three bushels of apples and one of tomatoes. The following women helped: Mrs. Roy Maxell, Mrs. George Eyster, Miss Helen Puss, Mrs. Robert Gillen, Miss Charlotte Miller, Mrs. Harry McNair, Mrs. Clarence Hahn, Mrs. E. R. Shriver, Mrs. Morris Zentz, Mrs. Edward Smith, Miss Grace Rowe, Mrs. A. W. McClellan, Mrs. Charles Harner. The women of the church will use this canned fruit at their church suppers. They
